Cover Limitations / Warranties

Rail Track Re-Profiling

- The maximum speed of any grinding unit shall not exceed 11.00km per hour.
- All Guards, Curtains, Spark Deflectors are to be in place and correctly positioned prior to the commencement of each grind.
- Maximum grinding distance in any one execution shall not exceed 10,000 metres.
- Any changes in prevailing weather conditions must be recorded and appropriate remedial action taken.
- The Insured Parties are to comply with all Fire Fighting requirements as set out in the Project Specification For Track Maintenance With An On Track Grinding / Profiling Machine and any amendments / deviations to this Project Specification are to be advised to the Insurer prior to work being undertaken.

NB If above not conformed with cover is forfeited.

Procedure Manual Principal Controlled Insurance 2009

- It is essential that this requirement is brought to the attention of Contractor's. Where this restriction is not practical, specific arrangements for cover can be made with underwriters. They will, however, require detailed underwriting information and an additional premium may be charged.

Other Limitations

- Indemnity for removal of lateral support is limited to R5,000,000.
If a higher limit of indemnity is required, the Employers Insurance Broker's personnel needs to be advised and underwriting information will need to be provided in advance (i.e prior to Tender stage) and this will entail an additional premium.
