Tenders may only be submitted on the tender documentation that is issued. Telegraphic, telephonic, facsimile and late tenders will not be accepted.

A Tenderer may, however, at any time communicate with the Chairperson of the Transnet Freight Rail Acquisition Council, at telephone no. 011 544 9486 on any matter relating to his tender.

Compliance of tender(s) with Transnet's requirements is the sole responsibility of the Tenderer and any costs incurred in subsequent modifications to or replacement of equipment accepted by Transnet Limited in good faith on the grounds of certified compliance with specified standards by the contractor and in fact found to be inadequate in such respects, will be to the relevant Tenderer's account

BROAD-BASED BLACK ECONOMIC EMPOWERMENT & SOCIO-ECONOMIC OBLIGATIONS

Transnet fully endorses and supports the Government's Broad-Based Black Economic Empowerment Programme and it is strongly of the opinion that all South African business enterprises have an equal obligation to redress the imbalances of the past.

Transnet would therefore prefer to do business with local business enterprises who share these same values and who are prepared to contribute to meaningful B-BBEE initiatives [including, but not limited to subcontracting and Joint Ventures] as part of their tendered responses. Transnet will accordingly allow "preference" points to companies who provide a B-BBEE Accreditation Certificate. All procurement transactions will be evaluated accordingly.

Consequently, when Transnet invites prospective Service Providers to submit Proposals for its various expenditure programmes, it urges Respondents [*Large Enterprises and QSE's - see below*] to have themselves accredited in compliance with the Government Gazette No 34612, Notice No. 754 dated 23 September 2011. As from 1 October 2011 valid B-BBEE Accreditation Certificates must be issued by

1. Verification Agencies accredited by the South African National Accreditation System [SANAS]; or
2. Registered auditors approved by the Independent Regulatory Board of Auditors [IRBA], in accordance with the approval granted by the Department of Trade and Industry.

A Verification Certificate issued must reflect the weighted points attained by the measured entity for each element of the scorecard as well as the overall B-BBEE rating.

1.1 B-BBEE Rating

Enterprises will be rated by Verification Agencies or registered auditors based on the following:

3. **Large Enterprises** [i.e. annual turnover greater than R35 million]:
 - Rating level based on all seven elements of the B-BBEE scorecard
4. **Qualifying Small Enterprises – QSE** [i.e. annual turnover between R5 million and R35 million]:
 - Rating based on any four of the elements of the B-BBEE scorecard
5. **Exempted Micro Enterprises – EME** [i.e. annual turnover less than R5 million]:
 - EMEs are exempted from B-BBEE accreditation
 - Automatic rating of Level 4 B-BBEE irrespective of race or ownership Black ownership greater than 50% or Black Women ownership greater than 50% automatically qualify as Level 3 B-BBEE
 - EME's should provide documentary proof of annual turnover [i.e. annual financials signed off by an accounting officer] plus proof of Black ownership if Black ownership is greater than 50% and/or Black Women ownership is greater than 50%

Respondents will be required to furnish proof of the above to Transnet. [i.e. a detailed scorecard as stipulated above in respect of Large Enterprises and QSEs, or proof of turnover in respect of EMEs].

N.B. Failure to do so will result in a score of zero being allocated for B-BBEE.

Turnover: Kindly indicate your entity's annual turnover for the past year: R _____

All Respondents must complete and return the B-BBEE Preference Points Claim Form attached hereto as Annexure A.

Joint Ventures and Subcontractors

In addition to the above, Respondents who wish to enter into a Joint Venture with, or subcontract portions of the contract to, B-BBEE entities must state in their RFPs, the percentage of the total contract value that will be allocated to such B-BBEE entities, should they be successful in being awarded any business. A rating certificate in respect of such B-BBEE JV-partners and/or subcontractor(s), as well as a breakdown of the distribution of the aforementioned percentage must also be furnished with the RFP response to enable Transnet to evaluate in accordance with the processes outlined in the B-BBEE Preference Points Claim Form.

Please note that a Respondent will not be awarded points for B-BBEE if it is indicated in its Proposal that such Respondent intends subcontracting more than 25% [twenty-five per cent] of the value of the contract to an entity that does not qualify for at least the same points that the Respondent qualifies for, unless the intended subcontractor is an EME with the capability to execute the contract.

B-BBEE Registration

In addition to the accreditation certificate, Transnet recommends that Respondents register their B-BBEE compliance and supporting documentation on the Department of Trade and Industry's [DTI] National B-BBEE IT Portal and Opportunities Network and provide Transnet with proof of registration in the form of an official B-BBEE Profile issued by the DTI.

Transnet would wish to use the DTI B-BBEE IT Portal as a data source for tracking B-BBEE compliance.

For instructions to register and obtain a DTI B-BBEE Profile go to <http://bee.thedti.gov.za>

Further Recognition Criteria

Transnet encourages its Service Providers to constantly strive to improve their B-BBEE rating. Whereas Respondents will be allocated points in terms of a preference point system based on its B-BBEE scorecard to be assessed as detailed in paragraph 5.1 above, in addition to such scoring, a further **10% [ten per cent]** will be allocated to a Respondent's score based on the "Further Recognition Criteria" [FRC] on an ascending scale. This will be calculated based on the extent to which the Respondent commits to meet and/or exceed the minimum compliance targets with its proposed target score to be achieved during the contract period.

Respondents are required to submit their Further Recognition Criteria with their Proposals.

Supplier Development Initiatives

Historically in South Africa there has been a lack of investment in infrastructure, skills and capability development and an inequality in the income distribution and wealth of a significant portion of the population. There have been a number of Government initiatives developed to address these challenges. In particular, the New Growth Path [NGP] developed in 2010 aligns and builds on previous policies to ensure the achievement of Government's development objectives for South Africa.

Transnet fully endorses and supports Government's New Growth Path policy through its facilitation of Supplier Development [SD] initiatives. Hence Supplier Development Initiatives are a prerequisite for this RFP and are included in the Evaluation Criteria.

SUPPLIER DEVELOPMENT INITIATIVES

1.1 Aim and Objectives

Historically in South Africa there has been a lack of investment in infrastructure, skills and capability development and an inequality in the income distribution and wealth of a significant portion of the population. There have been a number of Government initiatives developed to address these challenges. In particular, the New Growth Path [**NGP**] developed in 2010 aligns and builds on previous policies to ensure the achievement of Government's development objectives for South Africa. Transnet fully endorses and supports Government's New Growth Path policy.

The key focuses of the NGP include:

- increasing employment intensity of the economy
- addressing competitiveness
- balancing spatial development of rural areas and poorer provinces
- reducing the carbon intensity of the economy
- creating opportunities in improving regional and global cooperation
- enabling transformation that benefits a wider range of social actors in society e.g. workers, rural communities, youth and women

Transnet, as a State Owned Company [**SOC**], plays an important role to ensure these objectives are achieved. Therefore, the purchasing of goods and/or services needs to be aligned to Government's objectives for developing and transforming the local supply base. Transnet's mission is to transform its supplier base by engaging in targeted supplier development initiatives to support localisation and industrialisation whilst providing meaningful opportunities for Black² South Africans with a particular emphasis on:

- Youth [16 to 35 year olds]
- Black women
- People with disabilities
- Small businesses
- Rural integration

1.2 Supplier Development [SD]

To facilitate the implementation of Supplier Development initiatives, Transnet has adapted an existing framework from the Department of Public Enterprises [**DPE**]. This framework allows for a basic set of principles to be applied to appropriately targeted SD initiatives. Supplier development initiatives aim to build local suppliers who are competitive through building capability and capacity. Hence the framework has been termed the Increased Competitiveness, Capability and Capacity Supplier Development Classification Matrix [**IC³ Matrix**]. Currently there are four quadrants of SD initiatives which Transnet considers according to the IC³ Matrix. This RFP has been identified as *strategic*, involving high commercial leverage and high value. Transnet's expectation is that a minimum SD target of 10% [ten per cent] of the Respondent's tendered value is offered as part of its SD initiatives to be submitted [the SD Bid Document].

² "Black" means South African Blacks, Coloureds and Indians, as defined in the B-BBEE Act, 53 of 2003

Accordingly, Transnet requests all Respondents to submit a **Supplier Development Bid Document** demonstrating their commitment and support for the New Growth Path Policy and how an appointment in terms of this RFP would assist in achieving the NGP objectives.

- a) For a detailed understanding of the IC³ Matrix, the respective SD initiatives and their objectives, please refer to the "Guidelines for the Completion of a Supplier Development Bid Document" appended hereto as Annexure B.
- b) The following Supplier Development [SD] focus areas have been identified and are included in the prescribed evaluation criteria, namely:

Category	Description
New Skills development	Skills transfer & skills education which will occur as a result of the award of contract
Job Creation/Preservation	Number of jobs created or preserved resulting from the award of contract
Small Business Promotion	Encouragement for growth and the expansion of emerging local firms, through procurement and support mechanisms

- c) The **Supplier Development Bid Document** is to be submitted as a separate document, developed in line with the criteria set out in Annexure C [Supplier Development Value Summary] appended hereto. The Supplier Development Bid Document is a detailed narrative document explaining the Respondent's Bid value as summarised in Appendix C. There is no prescribed format for this document. This SD Bid Document will represent a binding commitment on the part of the successful Respondent. The SD Bid Document should outline the type of activities you intend to embark upon should you be awarded the contract. This Bid Document should also provide an overview of what you intend to achieve, when, and the mechanisms whereby you will achieve those objectives.

Annexure C must also be completed, indicating by cross-reference the detailed areas which have been addressed in your SD Bid Document for each of the evaluation criteria listed in paragraph 1.2 (c) above, together with the Value Indicators therefor.

Notes for completion of SD Bid Document:

- (i) Respondents are urged to pay careful attention to the compilation of the SD Bid Document [including Annexure C] since this will form an essential component of the evaluation of your Proposal.
- (ii) Respondents are required to address each of the aspects under the detailed SD Description as a minimum for submission. This is not an exhaustive list however, and Respondents must not be limited to these choices when compiling each section.
- (iii) Please provide detailed calculations to illustrate how your estimated Rand values provided in Annexure C have been derived.
- (iv) Respondents are required to provide an electronic copy [CD] of the completed Annexure C as part of the SD Bid Document submission.

1.3 Additional contractual requirements

Should a contract be awarded through this RFP process, the successful Respondent(s) [hereinafter referred to as **the Service Provider**] will be contractually committed, *inter alia*, to the following conditions:

- a) The Service Provider will be required to submit a Supplier Development Plan within 45 [forty-five] days from the signature date of a Letter of Intent [**LOI**]. This SD Plan represents additional detail in relation to the SD Bid Document providing an explicit breakdown of the nature, extent, timelines and monetary value of the SD commitments which the Service Provider proposes to undertake and deliver during the term of the contract. Specific milestones, timelines and targets will be recorded to ensure that the SD Plan is in line with Transnet's SD objectives and that implementation thereof is completed within the term of the contract.
- b) The SD Plan may require certain additions or updates to the initial SD Bid Document in order to ensure that Transnet is satisfied that development objectives will be met.
- c) The Service Provider will need to ensure that the relevant mechanisms and procedures are in place to allow for access to information to measure and verify the Service Provider's compliance with its stated SD commitments.
- d) The Service Provider will be required to provide:
 - (i) monthly status updates to Transnet for each SD initiative. [Detailed requirements will be provided by Transnet];
 - (ii) quarterly status reports for Transnet and the DPE. [Detailed reporting requirements will be provided by Transnet]; and
 - (iii) a final Supplier Development report, to be submitted to Transnet prior to the expiry date of the contract, detailing delivery, implementation and completion of all SD components plus auditable confirmation of the Rand value contribution associated with each such SD commitment.
- e) All information provided by the Service Provider in order to measure its progress against its stated targets will be auditable.
- f) The Service Provider will be required to submit this SD Plan to Transnet in writing, within 45 [forty-five] days after signature of a Letter of Intent [**LOI**], where after both parties must reach an agreement [signed by both parties] within 20 [twenty] days. Transnet will reserve the right to reduce or increase the number of days in which the Service Provider must submit its SD Plan if it is deemed reasonable, based on the degree of complexity of the SD initiative.
- g) The contract will be conditional on agreement being reached by the parties on the SD Plan submitted by the Service Provider. Therefore failure to submit or thereafter to agree to the SD Plan within the stipulated timelines will result in the non-award of such a contract or termination thereof.
- h) Failure to adhere to the milestones and targets defined in an SD Plan may result in the invocation of financial penalties, to be determined at Transnet's discretion, which shall equate to the monetary value of any such SD initiative which the Service Provider fails to deliver, as well as providing Transnet cause to terminate the contract in certain cases where material milestones are not being achieved.

1.4 **Supplier Development Documentation**

Your **SD Bid Document** [including Annexure C], to be submitted as part of your RFP Proposal, will represent a binding commitment on the part of the successful Respondent.

Attached herewith is the following documentation:

- **SD Guideline Document – Annexure B**

This document must be used as a guideline to complete the SD Bid Document.

- **SD Value Summary – Annexure C**

This template must be completed as part of the bid which will represent a binding financial commitment on the part of the successful Respondent.

Failure to submit, or to submit an incomplete Supplier Development Bid Document, which includes all the required Annexures as indicated in this Section, will result in disqualification of your Proposal.

1 What is Supplier Development?

The Supplier Development (**SD**) Programme is an initiative of the Department of Public Enterprises (**DPE**) supported by Transnet. The aim of SD is to increase the competitiveness, capability and capacity of the South African supply base where there are comparative advantages and potential for local or regional supply. This can be achieved through skills transfer, , as well as building new capability and capacity in the South African supply base. In addition, SD has its roots grounded firmly around the transformation of South Africa and the empowerment of previously disadvantaged individuals and enterprises.

2 Background and Guidance on the Supplier Development Objectives for South Africa

As a developing economy with inherent structural and social imbalances, South Africa is facing the significant economic challenge of increasing growth in a manner that includes all South Africans. The historical lack of investment in infrastructure in South Africa has negatively impacted on local industry, resulting in a loss of key skills and a decrease in manufacturing industry capabilities. To respond to this, Government policies have been designed to address these imbalances and to act as a catalyst of change for the benefit of South Africa.

One of these Government policies, the New Growth Path (**NGP**) aims to enhance growth, employment creation and equity by reducing the dependencies of South African industries on imports, and promoting the development of skills and capabilities that are in short supply within the country. It identifies strategies that will enable South Africa to grow in a more equitable and inclusive manner and promotes the development of new industry to attain South Africa's developmental agenda.

Transnet's SD effort is closely aligned to the NGP objectives and as a result we are able to fulfil our commitment to sustainability within South Africa whilst at the same time addressing other corporate objectives including increasing productivity and efficiency, volume growth, capital investment, financial stability, funding, human capital, SHEQ regulatory compliance and improving customer service.

The combined objectives of Transnet and Government will be realised through:

- aggressively implementing capital investment plans which will result in competitive local industries;
- improving operational efficiency;
- using procurement to influence the development of the local supplier industry; and
- ensuring it creates sufficient economic opportunities for the participation of previously disadvantaged groups.

This will lead to Transnet achieving its long-term objective of increasing both shareholder and societal value using its procurement expenditure to ensure local development through the sustainable growth of capability and capacity in South Africa's supply chain and the inclusion of the previously disadvantaged individuals in the economy in a manner that is beneficial to Transnet, South African industry and the people of South Africa. As a result this State Owned Company (**SOC**) is able to fulfil its responsibility as the biggest link in the South African freight logistics chain whilst complementing the objectives of Government.

3 Transnet’s Supplier Development Objectives and Framework

To aid its implementation of SD, Transnet has adapted an existing framework from the DPE. This framework allows for a basic set of principles to be applied to appropriately target SD initiatives. Supplier Development initiatives aim to assist local suppliers in developing their competitive advantage through increasing their capability and capacity potential. Hence the framework has been termed the Increased Competitiveness, Capability and Capacity (IC³) Supplier Development Classification Matrix.

This framework encapsulates the types of SD opportunities which Transnet currently considers effective and allows Transnet to move its SD structure away from a dynamic policy environment towards a framework that is designed around general Supplier Development objectives. This enables Transnet to adopt a standard structure but also allows the flexibility to reconsider emphasis on certain aspects as objectives change. The IC³ Matrix (refer to Figure 1 below) categorises SD opportunities in a matrix based on their value, extent of industrial leverage and strategic importance to Transnet. Further categorisation of opportunities into the relevant quadrants is based on supplier-buyer power, industrial complexity, risk and the length of procurement period.

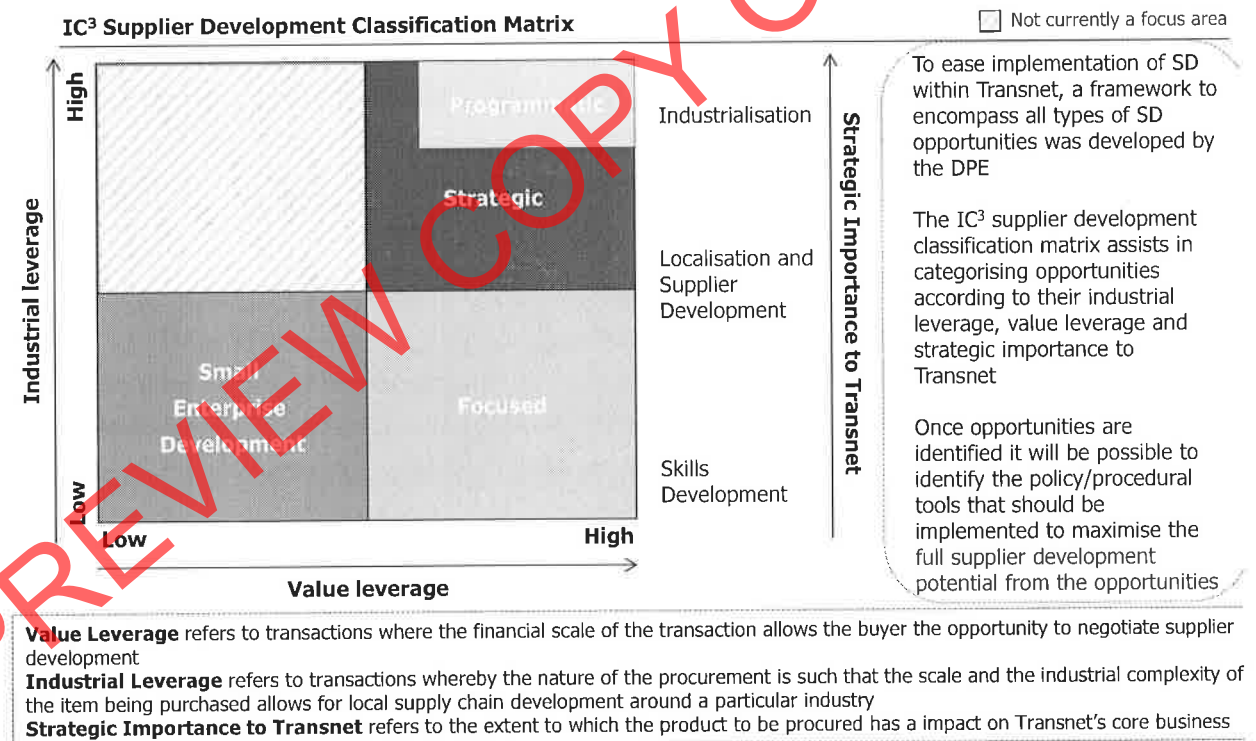

Figure 1: The IC³ Supplier Development Classification Matrix

In order for Service Providers to successfully meet the needs of a particular initiative, a detailed understanding of each quadrant is required.

3.1 Programmatic

Programmatic initiatives follow a longer than normal planning horizon and generally exceed the funding capacity of Transnet’s balance sheet. Collaboration between the SOC and Government is achieved through focused task teams whereby infrastructure development and industrialisation is achieved through joint support and in some cases public spending. Investment is focused in plant,

technology and skills in both intermediate and advanced capabilities to develop competitive advantage.

3.2 **Strategic**

Strategic initiatives follow a three to five year planning horizon, involving investment in at least plant, technology and/or skills in intermediate capabilities. This enforces the need for multinational corporations and Original Equipment Manufacturers (**OEMs**) to develop a certain percentage of their products locally. Strategic initiatives can therefore be used to achieve Transnet's objectives by increasing the competitiveness, capability and efficiency of local suppliers. Strategic initiatives can sometimes focus on advanced capabilities but will in most cases require Government support to develop local capability.

3.3 **Focused**

Focused initiatives include all high value transactions with limited industrial leverage and medium to low strategic importance. These initiatives address short to medium-term contracts that can be leveraged to encourage Supplier Development, with a focus on investment in technology or skills to enhance existing local capability. Emphasis will largely be placed on benefiting previously disadvantaged individuals. The overall result improves the socio-economic environment by creating competitive local suppliers and furthers objectives of empowerment, transformation and regional development.

3.4 **Small Enterprise Development**

Small Enterprise Development initiatives are typically of low value and have no industrial leverage as they are characterised by typically low complexity goods and high competition. These initiatives concentrate on increasing the capability of small local suppliers and are targeted toward historically disadvantaged individuals and communities, providing basic skills development and improving local employment and quality job creation. It includes a wide range of non-financial services that help entrepreneurs start new business and grow existing ones.

4 **Response based on the IC³ Matrix Quadrants**

Based on the supplier-buyer power, industrial complexity, risk and the length of procurement period, the Service Provider is expected to formulate a SD Bid Document to identify the opportunities that it will pursue. Ideally the SD Bid Document should address factors that are specific to the applicable quadrant of the IC³ matrix.

Transnet has identified a number of opportunities which may aid a Service Provider in formulating its response based on each quadrant. Each of the opportunities identified by the Service Provider should have a direct or indirect effect on the value it creates for the country in order to maximise the socio-economic impact.

Based on the strategic objectives, emphasis on SD evaluation categories will differ by IC³ quadrants

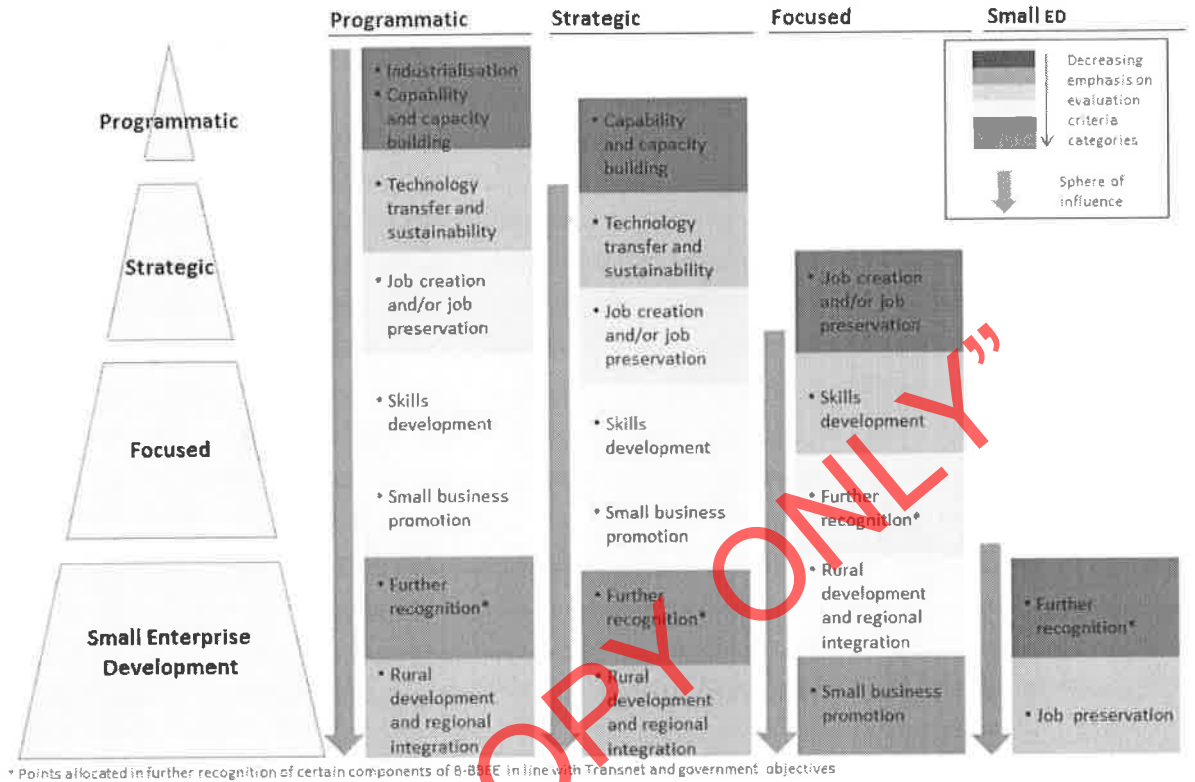

Figure 2: Transnet value capture through supplier influence

4.1 Programmatic

The strategic objective of “Programmatic transactions” is to assist Government to achieve its industrialisation objectives through the development of the local supplier base, in order to increase the cost efficiency of SOC procurement, support and maintenance programmes. In order to satisfy this objective a number of focus areas and key outcomes have been identified:

a) Programmatic Focus Areas -

- Industrialisation
- Capability and capacity building in South Africa
- Technology transfer
- Skills development related to the manufacturing process and the industry
- Development of new technology and innovation
- Investment in plant
- Development of local companies aligned to empowerment objectives

b) Key Outcomes -

- Industrialisation
- Manufacturing capability and capacity building
- Technology transfer
- Skills development

4.2 **Strategic**

The main objective of Strategic transactions is to leverage local downstream suppliers through large-scale SOC procurement in order to develop a competitive local supplier base. In response to these objectives the following are the specific focus areas and key outcomes applicable:

- a) Strategic Focus Areas -
 - Capability and capacity building in South Africa
 - Transfer of technology and innovation to local suppliers from foreign OEM's
 - Skills development related to the industry
 - Development of local companies aligned to empowerment objectives
- b) Key Outcomes -
 - Increased S.A. manufacturing capability and capacity
 - Increased technology transfer
 - Skills development
 - Job creation/preservation

4.3 **Focused**

Focused initiatives assist local suppliers to improve their performance, enhance their existing production and skills capabilities with emphasis being placed on benefiting previously disadvantaged individuals and rural development. In order to satisfy these objectives a number of focus areas and key outcomes have been identified:

- a) Focused Focus Areas -
 - Developing a local supplier base that supports preferential procurement outcomes
 - Developing skills within the specific industry
 - Creating opportunity for job preservation
 - Reducing income inequality in specific regions
- b) Key Outcomes -
 - Empowerment
 - Skills development
 - Rural development
 - Job creation/preservation

4.4 **Small Business Development**

Enterprise Development (**ED**) objectives are centred around assisting local suppliers to improve their skills by placing increased emphasis on benefiting previously disadvantaged individuals and rural development in line with the Broad-Based Black Economic Empowerment (B-BBEE) strategy. The following focus areas and key outcomes have been identified:

- a) Small Business Development Focus Areas -
 - Providing small businesses with opportunities and preferential trading terms, increased focus on Black woman-owned enterprises, focus on the youth, people with disabilities and region-specific initiatives

- Empowering previously disadvantaged individuals to create their own businesses resulting in quality job creation
- b) Key Outcomes -
- Empowerment
 - Rural development
 - Skills development
 - Job creation/preservation

Based on these focus areas and key outcomes, a Service Provider would need to actively focus on the quadrant-specific requirements in order to maximise the potential commercial benefit for Transnet, South Africa and themselves. In doing so value can be created across all lines of reporting resulting in continued relations.

6 Market Intelligence Assistance

Service Providers with limited knowledge of the local market, supply base and its capabilities may require assistance in identifying local suppliers and the development needs in order to develop its SD Bid

Document. The United Nations Industrial Development Organisation (UNIDO) supplies a benchmarking service in South Africa which will be able to assist Service Providers in identifying potential local suppliers with which to work. In addition, this service will provide insight as to the type of support that these local suppliers require in order to become more competitive. UNIDO's benchmarking tool gives insight into the performance levels being seen in Service Providers' businesses and the practices used to deliver the products or services being offered. The benchmarking tool focuses on:

- 6.1 Performance data relating to -
 - a) Financial performance
 - b) Customer data
 - c) Processes
 - d) Learning & growth
- 6.2 Company's current business situation -
 - a) Plans for the business and capabilities to manage their fulfilment
 - b) Ability to generate business
 - c) Employee relationships
 - d) Developing new markets
 - e) Developing products and services
 - f) Managing money

The UNIDO benchmarking tool provides a basic framework through which an understanding of the South African market can be established. Whilst the list of criteria may not be exhaustive, Service Providers are free to meet with UNIDO to further understand how they can work together to develop a deeper understanding of the market and the SD opportunities available.
