Transnet SOC Ltd

Enquiry Number : EFT-3413927-003

Description of Works: Track Welding Team : Broodsnyersplaas to Ogies

- F.2.1 Only those tenderers who are registered with the CIDB, or are capable of being so prior to the evaluation of submissions, in a contractor grading designation equal to or higher than a contractor grading designation determined in accordance with the sum tendered or a value determined in accordance with Regulation 25 (1B) or 25(7A) of the Construction Industry Development Regulations, for a 7CE class of construction work, are eligible to have their tenders evaluated.
- Joint ventures are eligible to submit tenders provided that:
1. every member of the joint venture is registered with the CIDB;
  2. the lead partner has a contractor grading designation in the 7CE class of construction work; and
  3. the combined *Contractor* grading designation calculated in accordance with the Construction Industry Development Regulations is equal to or higher than a *Contractor* grading designation determined in accordance with the sum tendered for a 7CE class of construction work or a value determined in accordance with Regulation 25 (1B) or 25(7A) of the Construction Industry Development Regulations.
- 
- F.2.7 The arrangements for a compulsory clarification meeting are as stated in the Tender Notice and Invitation to Tender.
- Tenderers must sign the attendance list in the name of the tendering entity. Addenda will be issued to and tenders will be received only from those tendering entities appearing on the attendance list.
- 
- F.2.12 No alternative tender offers will be considered
- 
- F.2.13.3 Parts of each tender offer communicated on paper shall be as an original.
- 
- F.2.13.5 The Employer's details and address for delivery of tender offers and identification details that  
F2.15.1 are to be shown on each tender offer package are:
- |                         |   |
|-------------------------|---|
| Location of tender box: | Transnet Freight Rail (RME)   |
| Physical address:       | Cnr. North Reef & Jet Park Road,<br>Elandsfontein   |
| Identification details: | The tender documents must be submitted in a sealed envelope labelled with: <ul style="list-style-type: none"> <li>▪ The Tender Number: EFT-3413927-003</li> <li>▪ The Tender Description: Track Welding Team : Broodsnyersplaas to Ogies</li> </ul> Documents must be marked for the attention of Estelle Dunn. <p>Prior arrangement on the submittal of large tender documents should be made with the Contract Administrator.</p> |
- 
- F.2.13.9 Telephonic, telegraphic, facsimile or e-mailed tender offers will not be accepted.
- 
- F.2.15 The closing time for submission of tender offers is as stated in the Tender Notice and Invitation to Tender.
- 
- F.2.16 The tender offer validity period is 8 weeks

- F.2.18 Provide, on request by the *Employer*, any other material information that has a bearing on the tender offer, the tenderer's commercial position (including notarized joint venture agreements), preferencing arrangements, or samples of materials, considered necessary by the *Employer* for the purpose of a full and fair risk assessment. Should the tenderer not provide the material, or a satisfactory reason as to why it cannot be provided, by the time for submission stated in the *Employer's* request, the *Employer* may regard the tender offer as non-responsive.
- F.2.20 If requested, submit for the *Employer's* acceptance before formation of the contract, all securities, bonds, guarantees, policies and certificates of insurance required in terms of the conditions of contract identified in the Contract Data. (The format is included in Part T2.2 of this procurement document).
- F.2.23 The tenderer is required to submit with his tender:
1. an **original** or a **certified copy** of a **valid** Tax Clearance Certificate issued by the South African Revenue Services;
  2. A valid SANAS B-BBEE accreditation certificate and
  3. Letter of good standing with the compensation commissioner.
- Note: Refer to Section T2.1 for List of Returnable Documents
- F.3.4 The time and location for opening of the tender offers are:  
 Time 10h05 on Friday, 02 November 2012.  
 Location: Cnr. North Reef & Jet Park Road, Elandsfontein.
- F.3.11.5 The procedure for the evaluation of responsive tenders is Method 4
- The value of  $W_2$  is 50. The score for financial offer is calculated using Formula 2 (Option 2) where  $W_1$  is the percentage score given to financial offer and equals 100 minus  $W_2$ .
- The score for quality and financial offer is to be combined, before the addition of the score for preference, as follows:
- $$W_c = W_3 \times \left(1 + \frac{(S - S_m)}{S_m}\right)$$
- Where  $W_3$  is the number of tender evaluation points for quality and financial offer and equals:
- 1) 90 where the financial value inclusive of VAT of all responsive tenders received have a value in excess of R1 000 000; or
  - 2) 80 where the financial value inclusive of VAT of one or more responsive tender offers equals or is less than R1 000 000.
- $S$  is the sum of score for quality and financial offer of the submission under consideration  
 $S_m$  is sum of the score for quality and financial offer of the submission scoring the highest number of points
- Up to 100 minus  $W_3$  tender evaluation points will be awarded to tenderers who complete the preferencing schedule and who are found to be eligible for the preference claimed.

F.3.11.3 The quality criteria and maximum score in respect of each of the criteria are as follows:

Quality criteria	Subcriteria	Maximum number of points
Availability of Equipment & Resources	Immediate Availability	25
Management & CV's of Key Persons	<p>Valid Trackmaster Certificate and Train Working Rules for Track Master/Supervisors with 5 years of relevant Track maintenance experience/Or valid Track welding Qualifications/ Or valid Ultrasonic Tester qualifications, all must be accepted and recognized by TFR</p> <p>Category C green, Medical Certificate of Fitness and First Aid for Supervisors and Safety Reps</p> <p>Category D blue and Medical Certificate of Fitness for Flagmen</p> <p>Passed TFR RME Driver assessment, PDP and Medical Certificate of Fitness for Drivers</p>	25
Health & Safety Plan	Valid Letter of Good Standing and Safety Records for previous 24 months	25
Previous Experience		25
<b>Maximum possible score for quality (W<sub>Q</sub>)</b>		<b>100</b>

Quality shall be scored independently by not less than three evaluators in accordance with the following schedules

- T2.2-4 Availability of Equipment and Other Resources
- T2.2-7 Management & CV's of Key Persons
- T2.2-22 Health & Safety Plan
- T2.2-25 Previous Experience

The minimum number of evaluation points for quality is : 50

The persons named in the Schedule of Key Persons of tenderers who satisfy the minimum quality criteria will be invited to an interview. Tenderers who attain a score of less than 50% of the points allocated to the interview will be declared ineligible to tender.

Each evaluation criteria will be assessed in terms of six indicators – no response, poor, less than acceptable, acceptable, above acceptable and excellent. Scores of 0, 20, 40, 60, 80 or 100 will be allocated to no response, poor, satisfactory, good and very good, respectively. The scores of each of the evaluators will be averaged, weighted and then totalled to obtain the final score for quality. (See CIDB Best Practice Guideline #4)

Score	Prompt for judgement
0	Failed to address the question / issue
20	A detrimental response / answer / solution – limited or poor evidence of skill / experience sought or high risk that relevant skills will not be available
40	Less than acceptable – response / answer / solution lacks convincing evidence of skill / experience sought or medium risk that relevant skills will not be available.
60	Acceptable response / answer / solution to the particular aspect of the requirements and evidence given of skill / experience sought
80	Above acceptable – response / answer / solution demonstrating real understanding of requirements and evidence of ability to meet it.
100	Excellent – response / answer / solution gives real confidence that the tenderer will add real value.

The scores of each of the evaluators will be averaged, weighted and then totalled to obtain the final score for quality.

Should the BBBEE rating not be provided, Transnet reserves the right to award no points and/or declare the tender void. Transnet also reserves the right to carry out an independent audit of the tenderers scorecard components at any stage from the date of close of the tenders until completion of the contract.

---

Tenderers with no accreditation will score zero points for preferencing.

---

F.3.13.1 Tender offers will only be accepted if:

- a) the tenderer submits an **original** or a **certified valid** Tax Clearance Certificate issued by the South African Revenue Services or has made arrangements to meet outstanding tax obligations;
- b) the tenderer is registered with the Construction Industry Development Board in an appropriate contractor grading designation;
- c) the tenderer or any of its directors/shareholders is not listed on the Register of Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector;
- d) the tenderer has not:
  - i) abused the Employer's Supply Chain Management System; or
  - ii) failed to perform on any previous contract and has been given a written notice to this effect;
- e) the tenderer has completed the Compulsory Enterprise Questionnaire and there are no conflicts of interest which may impact on the tenderer's ability to perform the contract in the best interests of the Employer or potentially compromise the tender process and persons in the employ of the state are permitted to submit tenders or participate in the contract;
- f) the tenderer is registered and in good standing with the compensation fund or with a licensed compensation insurer;
- g) the Employer is reasonable satisfied that the tenderer has in terms of the Construction Regulations, 2003, issued in terms of the Occupational Health and Safety Act, 1993, the necessary competencies and resources to carry out the work safely.

---

F.3.18 The number of paper copies of the signed contract to be provided by the Employer is 1 (one).

## SUPPLIER DEVELOPMENT PLAN

The upswing in growth in the last decade, followed by the global recession in 2008, as well as persistently high unemployment and social inequality, forced the South African government to re-evaluate its growth strategy. This led to the development of a revised growth framework, the New Growth Path (NGP). The NGP aims to enhance growth, employment creation and equity, through the identification of strategies that will enable South Africa to grow in a more equitable and inclusive manner and promote the development of new industry to attain South Africa's developmental agenda.

In order to achieve this, the NGP focuses on:

- Increasing employment intensity of the economy
- Increasing the responsiveness of infrastructure and addressing competitiveness
- Balancing spatial development of rural areas and poorer provinces
- Reducing the carbon intensity of the economy
- Creating opportunities in changing regional and global environments
- Enabling transformation that benefits a wider range of social actors in society e.g. workers, rural communities, women etc.

Tenderers must submit a Supplier Development Plan (SDP) which clearly indicates the following benefits:

- Acceleration of localisation and transformation of local business by promoting technology transfer, skill development and job creation
- Focused regional development
- Increase in local content – security of supply, reduced cycle times, reduced exposure to foreign currency and reduction of supply chain costs (over time)
- Transformation of supplier dominance from large international or traditionally white owned business to locally owned and black owned suppliers

The SDP will be incorporated in the eventual Contract and will be managed as part of the Contractors deliverables in terms of the contract. The final SDP will be submitted and agreed to by Transnet and Tenderers must clearly indicate in their Pricing Schedule the cost of implementation hereof. Financial penalties will be included in the contract and be imposed based on the Pricing Schedule for non-compliance with the SDP.

# C1.1 Form of Offer & Acceptance

**Offer**

The Employer, identified in the Acceptance signature block, has solicited offers to enter into a contract for the procurement of:

**PROVISION OF TRACK WELDING TEAM :  
 BROODSNYERSPLAAS TO OGIES**

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto as listed in the Returnable Schedules, and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the tenderer, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the tenderer offers to perform all of the obligations and liabilities of the *Contractor* under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the *conditions of contract* identified in the Contract Data.

The offered total of the Prices exclusive of VAT is	R
Value Added Tax @ 14% is	R
The offered total of the Prices inclusive of VAT is	R
(in words)	

This Offer may be accepted by the Employer by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document including the Schedule of Deviations (if any) to the tenderer before the end of the period of validity stated in the Tender Data, or other period as agreed, whereupon the tenderer becomes the party named as the *Contractor* in the *conditions of contract* identified in the Contract Data.

Tenderer's CIDB registration number:

**Acceptance**

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the *conditions of contract* identified in the Contract Data. Acceptance of the tenderer's Offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

- Part C1            Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
- Part C2            Pricing Data
- Part C3            Scope of Work: Works Information

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The tenderer shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data at, or just after, the date this agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed original copy of this document, including the Schedule of Deviations (if any).

Unless the tenderer (now Contractor) within five working days of the date of such receipt notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the Parties.

**Schedule of Deviations**

Note:

1. To be completed by the Employer prior to award of contract. This part of the Offer & Acceptance would not be required if the contract has been developed by negotiation between the Parties and is not the result of a process of competitive tendering.
2. The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the Conditions of Tender.
3. A tenderer's covering letter must not be included in the final contract document. Should any matter in such letter, which constitutes a deviation as aforesaid be the subject of agreement reached during the process of Offer and Acceptance, the outcome of such agreement shall be recorded here and the final draft of the contract documents shall be revised to incorporate the effect of it.

# C1.2 Contract Data

## Part two - Data provided by the Contractor

The tendering contractor is advised to read both the NEC3 Engineering and Construction Contract - June 2005 (with amendments June 2006) and the relevant parts of its Guidance Notes (ECC3-GN)<sup>2</sup> in order to understand the implications of this Data which the tenderer is required to complete. An example of the completed Data is provided on pages 152 to 154 of the ECC3 Guidance Notes.

Completion of the data in full, according to Options chosen, is essential to create a complete contract.

Clause	Statement	Data
10.1	The <i>Contractor</i> is (Name):  Address  Tel No.  Fax No.	
24.1	The <i>Contractor's</i> key persons are:  1 Name:  Job:  Responsibilities:  Qualifications:  Experience:  2 Name:  Job:  Responsibilities:  Qualifications:  Experience:	CV's (and further key persons data including CVs) are appended to Tender Schedule entitled
11.2(14)	The following matters will be included in the Risk Register	
<b>B</b>	<b>Priced contract with bill of quantities</b>	
11.2(21)	The <i>bill of quantities</i> is in

## C2.1 Pricing instructions: Option B

### 1. The conditions of contract

#### 1.1. How the contract prices work and assesses it for progress payments

Clause 11 in NEC3 Engineering and Construction Contract, June 2005 (ECC3) Option B states:

<b>Identified and defined terms</b>	11 11.2	<p>(21) The Bill of Quantities is the <i>bill of quantities</i> as changed in accordance with this contract to accommodate implemented compensation events and for accepted quotations for acceleration.</p> <p>(22) Defined Cost is the cost of the components in the Shorter Schedule of Cost Components whether work is subcontracted or not excluding the cost of preparing quotations for compensation events.</p> <p>(28) The Price for Work Done to Date is the total of</p> <ul style="list-style-type: none"> <li>• the quantity of the work which the <i>Contractor</i> has completed for each item in the Bill of Quantities multiplied by the rate and</li> <li>• a proportion of each lump sum which is the proportion of the work covered by the item which the <i>Contractor</i> has completed.</li> </ul> <p>Completed work is work without Defects which would either delay or be covered by immediately following work.</p> <p>(31) The Prices are the lump sums and the amounts obtained by multiplying the rates by the quantities for the items in the Bill of Quantities.</p>
-------------------------------------	------------	---

This confirms that Option B is a re-measurement contract and the bill comprises only items measured using quantities and rates or stated as lump sums. Value related items are not used. Time related items are items measured using rates where the rate is a unit of time.

#### 1.2. Function of the Bill of Quantities

Clause 55.1 in Option B states, "Information in the Bill of Quantities is not Works Information or Site Information". This confirms that instructions to do work or how it is to be done are not included in the Bill, but in the Works Information. This is further confirmed by Clause 20.1 which states, "The *Contractor* Provides the Works in accordance with the Works Information". Hence the *Contractor* does **not** Provide the Works in accordance with the Bill of Quantities. The Bill of Quantities is only a pricing document.

#### 1.3. Guidance before pricing and measuring

Employers preparing tenders or contract documents, and tendering contractors are advised to consult the sections dealing with the bill of quantities in the NEC3 Engineering and Construction Contract (June 2005) Guidance Notes before preparing the *bill of quantities* or before entering rates and lump sums into the *bill*.

Historically bill of quantities based contracts in South Africa have been influenced by the different approaches of the civil engineering and building sectors of the industry through their respective discipline based standard forms of contract and methods of measurement. This is particularly apparent in the approach to the Preliminary and General bill. On the other hand, because ECC3 caters for a number of disciplines in the same contract, including electrical works, a different approach not currently found in local methods of measurement to the Preliminary & General bill items may have been used.

The NEC approach to the P & G bill assumes use will be made of method related charges for Equipment applied to Providing the Works based on durations shown in the Accepted Programme, fixed charges for the use of Equipment that is required throughout the construction phase, time related charges for people working in a supervisory capacity for the period required, and lump sum charges for other facilities or services not directly related to performing work items typically included in other parts of the bill.

## 2. Measurement and payment

### 2.1. Symbols

The units of measurement described in the Bill of Quantities are metric units abbreviated as follows:

Abbreviation	Unit
%	percent
h	hour
ha	hectare
kg	kilogram
kl	kilolitre
km	kilometre
km-pass	kilometre-pass
kPa	kilopascal
kW	kilowatt
l	litre
m	metre
mm	millimetre
m <sup>2</sup>	square metre
m <sup>2</sup> -pass	square metre pass
m <sup>3</sup>	cubic metre
m <sup>3</sup> -km	cubic metre-kilometre
MN	meganewton
MN.m	meganewton-metre
MPa	megapascal
No.	number
Prov sum <sup>1</sup>	provisional sum
PC-sum	prime cost sum
R/only	Rate only
sum	Lump sum
t	ton (1000kg)
W/day	Work day

<sup>1</sup> Provisional Sums should not be used unless absolutely unavoidable. Rather include specifications and associated bill items for the most likely scope of work, and then change later using the compensation event procedure if necessary. This is because tenderers cannot programme effectively for unknown scopes of work

## 2.2. General assumptions

- 2.2.1. Unless otherwise stated, items are measured net in accordance with the drawings, and no allowance has been made in the quantities for waste.
- 2.2.2. The Prices and rates stated for each item in the Bill of Quantities shall be treated as being fully inclusive of all work, risks, liabilities, obligations, overheads, profit and everything necessary as incurred or required by the *Contractor* in carrying out or providing that item.
- 2.2.3. Clause 63.13 in Option B provides that these rates and Prices may be used as a basis for assessment of compensation events instead of Defined Cost.
- 2.2.4. Where this contract requires detailed drawings, designs or other information to be provided, and no rates or prices are included in the *bill* specifically for such matters, then the *Contractor* is deemed to have allowed for all costs associated with such requirements within the tendered rates and Prices in the Bill of Quantities.
- 2.2.5. An item against which no Price is entered will be treated as covered by other Prices or rates in the *bill of quantities*. If a number of items are grouped together for pricing purposes, this will be treated as a single lump sum.
- 2.2.6. The quantities contained in the Bill of Quantities may not be final and do not necessarily represent the actual amount of work to be done. The quantities of work assessed and certified for payment by the *Project Manager* at each assessment date will be used for determining payments due and not the quantities given in the Bill of Quantities.
- 2.2.7. The short descriptions of the items of payment given in the *bill of quantities* are only for the purposes of identifying the items. More detail regarding the extent of the work entailed under each item is provided in the Works Information.

## 2.3. Amplification of or assumptions about measurement items

For the avoidance of doubt the following is provided to assist in the interpretation of descriptions given in the *method of measurement*. In the event of any ambiguity or inconsistency between the statements in the *method of measurement* and this section, the interpretation given in this section shall be used.

**TRACK WELDING TEAMS FROM BROODSNYERSPLAAS TO OGIES**

## 1. Background:

TFR Infra Ermelo Depot has furnished the TFR TEW Coalline Segment with a Commitment for the provision of three (3) Track Welding Teams on a constant basis and one (1) as and when required Track Welding Team to execute track welding related work between **Broodsniersplaas and Ogies**. The work is currently performed by Sub-Contractors as RME do not have the capacity to supply the resources and we need to procure a contract and appoint suitable Sub-Contractors to execute the work required as per operational requirements of the TFR Depot.

## 2. Purpose/ Objective:

THE TEAMS REQUIRED UNDER THIS CONTRACT FOR THE EXECUTION OF TRACK WELDING RELATED WORK BETWEEN **BROODSNYERSPLAAS AND OGIES**, AS PER OPERATIONAL REQUIREMENTS AND PROGRAM SUPPLIED BY TFR ERMELO INFRA DEPOT

(a) Four (4) x fully equipped Track Welding Teams.

Under this contract the contractor will supply 1 x accredited Welding Supervisor with transport and 4 x fully equipped track welding teams, 3 on a constant basis and 1 on a "as and when" basis, each equipped with the following:

- i) A fully accredited track welder capable to work on S60kg rails, skid marks and repair turnout crossings.
- ii) 1 x Driver (assessed by TFR assessor) & 1 x Safety Rep and 2 x Helpers
- iii) 4 t Duel Purpose Truck / Transporter for welder, personal, plant, tools & equipment in accordance with TFR RME Vehicle policy regarding safe transportation of employees and equipment
- iv) Welding Machine (Min. 380 Amp. output, 100% work cycle & maximum weight of 180 kg)
- v) MP12 rail profile grinder
- vi) MC2 rail profile grinder
- vii) Petrol Pre-heater
- viii) Rail stripper
- ix) Discutter
- x) 100 mm & 250 mm Angle Grinder
- xi) Generator
- xii) Rail Trolley
- xiii) Gas equipment pipes & gauges, etc.
- xiv) Approved Tents for use in rain
- xv) 3 x 500 W Spot Lights & stands
- xvi) All other tools & equipment required and proper control and maintenance of these.

### 3. Confidentiality:

A fundamental requirement of the procurement process is that tender information is kept confidential at all times. No team members or stakeholders are to communicate these technical specifications to anyone outside of the process.

### 4. The Technical Specification

Detail the technical specification required to fill the demand, in the necessary format. A suggested outline format is detailed below;

#### a. Introduction

TFR Infra Ermelo Depot has furnished the TFR TEW Coalline Segment with a Commitment for the provision of four (4) Track Welding Teams, 3 on a constant basis and 1 on a "as and when" basis, to execute track welding related work between **Broodsniersplaas and Ogies**. The work is currently performed by Sub-Contractors as RME do not have the capacity to supply the resources and we need to procure a contract and appoint suitable Sub-Contractors to execute the work required as set out by the TFR program and operational requirement.

#### b. Scope

- The provision of four (4) fully equipped Track Welding Teams, 3 on a constant basis and 1 on a "as and when" basis, with the requirements of conforming to the technical specifications for Track Maintenance & related projects on main lines, secondary lines and yard track in the execution of work. The Teams must be based and operate from **Bethal** as to cover **Broodsniersplaas to Ogies** Area.
- the contractor shall supply adequate management inputs, supervision, labour, plant, tools & equipment and any other resources required to execute the maintenance work, as provided by Transnet Freight Rail under this contract, within the required time frames, at production tempo's & standards specified, at competitive and market related prices.

The *Contractor* will provide the following for the duration of the contract and allowance must be made for this in tendered rates:

Experienced Management, Supervisors and support personnel responsible for the following:

- a) Daily management and administration of all the *Contractor's* teams and employees used in the execution of this contract
- b) If required by TFR RME do detailed evaluations of workplaces, identified by them confirming workloads and material requirements provided by them
- c) In conjunction with TFR RME, do proper planning and programming for each contract or team

- d) Overall quality control and supervision of teams as well as daily communication, feedback and liaison with TFR RME supervisors
- e) In-task training of all personnel. (in accordance with Transnet Freight Rail requirements such as Safety Rep, driver, ect. training)
- f) Problem solving and assistance to eliminate re-work and failures
- g) Enforce required and applicable procedures and specifications in-task
- h) Provision of statistics of productions, failures, affectivity, materials used, etc. with monthly claims for Transnet Freight Rail's approval
- i) Attend weekly and all other liaison meetings required by the TFR RME Contract Manager
- j) Responsible for safety and safety meetings with safety representatives
- k) Assist the Contract Manager or his representative where and when required

**c. The Requirements:**

**1. MANAGEMENT & SUPPORT REQUIRED UNDER THIS CONTRACT**

For the duration of the Agreement the *Contractor* will, on a full-time basis, supply the following approved, qualified and experienced management & support personnel, with transport & equipment, to assist Transnet Freight Rail:

- i) Technical Superintendent / Welding Supervisor
- ii) 4 Qualified and accredited Track Welders, 3 on a constant basis and 1 on a "as and when" basis, recognised and approved by Transnet Freight Rail

**2. A TRACK WELDING TEAM REQUIRED UNDER THIS CONTRACT**

4 x fully equipped Track Welding gangs, 3 on a constant basis and 1 on a "as and when" basis.

Under this contract the contractor will supply 1 x accredited Welding Supervisor with transport and 4 x fully equipped and accredited Track Welding Teams, 3 on a constant basis and 1 on a "as and when" basis, each fully equipped to execute their duties as per tool and equipment list

3. All communication required with the project teams as Radios and / or cellular telephones for communication with CTC, flagmen, protection, supervisors and the Service Manager or his representatives.

**d. Current consumption per annum:**

- TFR RME currently has a year to year commitment for the last 10 years from the TFR Ermelo Infra Depot to supply Track Welding Teams between **Broodsyersplaas and Ogies.**
- The Teams are required to work on a daily basis as per the operational requirements of TFR, this will include 10/4 shifts and standby during these periods but can change to normal 5 day working weeks and some weekend overtime allowed with or without standby

e. **Current suppliers and level of engagement with TFR (e.g. performance etc.):**

Based on the commitments received from TFR Infra Depots to RME there has been Sub-Contracts in place for the last 10 years to execute the Track Welding Maintenance work in this area. RME created spare capacity with these contracts to accommodate the growing workload.

f. **Duration of contract:**

The duration of the contract will be approximately 36 months from starting date.

g. **Area/s of deployment (e.g. National, Regional):**

Regional. Ermelo Depot – Broodsniersplaas to Ogies based in Bethal

h. **Functional Requirements**

Transnet Freight Rail-RME will assume that the *contractor* is a competent, professional body, updated with all the relevant rules, instructions and working methods and procedures to execute the works. Therefore all rework due to the lack of knowledge or expertise will be for the *contractor's* account

i. **Performance Requirements**

If applicable:

- Latest revisions of applicable SABS 1200 specifications and Transnet Capital Projects (Transnet Freight Rail-RME) Circulars, Specifications and Guidelines for off-track maintenance as E5 (Maintenance),
- E7/1&2 and Transnet Freight Rail Manual for track maintenance 2000,

Latest revisions of Transnet or Transnet Freight Rail circulars and specifications

- Specifications for track welding "SSS"
- Manual for Track Maintenance (2000)
- E10 - Specification for railway track work
- Construction rules & regulations
- S410 specification for railway earthworks - revision march 2006

j. **Other Requirements**

- All facilities, tools, equipment and personnel as required
- All plant, tools and equipment required under this agreement as well as the proper maintenance and control to keep these in proper working condition as to

execute the Contract. Also keep records and proper management of Code 29 required for inspection by TFR RME Safety Officers.

- All Facilities and accommodation for their staff.
- Provision of site books per team: (triplicate book with duplication paper) one site instruction book for recording of site instructions issued by the Contract Manager. One daily diary book which will be kept updated daily with information of all available resources, productions, delays, etc. And signed by both the *Contractor's* and the Contract Manager's representatives at the end of each day. These records will assist with monthly measurements and payments.
- A DSTI booklet that must be completed before and after any work is executed. This is a legal document required under the Construction Law and Regulations.
- The *Contractor* shall supply and distribute fuel for all vehicle, plant, small plant and machinery used in the execution of the projects and maintain and service all equipment
- all communication required by radios and / or cellular telephones for communication

k. **Technical Risk Identified:**

l. **Constraints:**

- A yearly safety induction must be conducted for each employee by the TFR RME Safety Officer
- Site Instructions will only be valid if issued by a TFR RME Contract Manager or his representative with necessary delegation of authority.

m. **Implementation Requirements:**

- Site Access certificates must be issued by TFR, based on the Teams Safety file and compliance to all TFR, RME and Legal requirements.
- Before teams establish a full audit on compliance to all qualifications of employees, tools, equipment and vehicles will be done; this will also be done on a regular basis by the RME Contract Manager and/or his representative.

n. **Environmental Impact Assessment (EIA):**

Obtain written confirmation and signoff from TFR Enterprise Risk Management Department (Elekanyani Phundulu) on this procurement event and whether an EIA is necessary as well as the evaluation criteria (where necessary).
