8. BROAD-BASED BLACK ECONOMIC EMPOWERMENT ("BBBEE")

TRANSNET fully endorses and supports the South African Government's Broad-Based Black Economic Empowerment Programme and it is strongly of the opinion that all business enterprises have an equal obligation to redress the imbalances of the past. TRANSNET would therefore prefer to do business with business enterprises who share these same values and who are prepared to contribute to meaningful BBBEE initiatives (including and not limited to enterprise development, subcontracting and Joint Ventures) as part of their tender response.

Transnet would accordingly allow a "preference" in accordance with the 10% preference system, as per the Preferential Procurement Policy Framework Act 5 of 2000 (as amended) to companies who provide a BBBEE accreditation Certificate. All procurement and disposal transactions in excess of R30000 will be evaluated accordingly. All transactions below R 30,000 will as far as possible be earmarked for EME's.

TRANSNET consequently urges Respondents (Large enterprises and QSE's – see below) to have themselves duly accredited by any one of the Accreditation Agencies **approved** by SANAS (South African National Accreditation System, under the auspices of the DTI).

In terms of Government Gazette No. 32467, Notice No. 810 dated 31 July 2009, as from 1 February 2010 only BBBEE certificates issued by Accredited Verification Agencies of Verification Agencies that are in possession of a valid pre-assessment letter from South African National Accreditation System will be valid.

However accreditation certificates issued by non-accredited verification agencies before 01 February 2010 and which are still within their one (1) year validity period will still be acceptable, until their expiry date provided that the accreditation was done in accordance with the latest codes (i.e. those promulgated on 9 February 2007).

BBBEE Accreditation Certificates issued after the published date i.e. 01 February 2010, by a Verification Agency not approved by SANAS, will NOT be acceptable as from 01 February 2010.

Enterprises will be rated by such Accreditation Agencies based on the following:

- (a) Large Enterprises (i.e. annual turnover >R35 million):
 - > Rating level based on all 7 (seven) elements of the BBBEE scorecard
 - Enterprises to provide BBBEE certificate and detailed scorecard (to be renewed annually)
- (b) Qualifying Small Enterprises QSE (i.e. annual turnover >R5 million but <R35 million):

- > Rating based on any 4 (four) of the elements of the BBBEE scorecard
- Enterprises to provide BBBEE certificate and detailed scorecard (to be renewed annually)

(c) <u>Exempted Micro Enterprises – EME (i.e. annual turnover <R5m are exempted from being rated or verified):</u>

- Automatic BBBEE Level 4 rating, irrespective of race ownership, i.e. 100% BBBEE recognition
- ➤ Black ownership >50% or Black Women ownership >30% automatically qualify as Level 3 BBBEE rating, i.e. 110% BBBEE recognition
- ➤ EME's should provide documentary proof of annual turnover (i.e. audited financials) plus proof of Black ownership if Black ownership >50% or Black Women ownership >30% (to be renewed annually) from their Auditors / Accounting Officers

In addition to the above, Respondents who wish to enter into a Joint Venture (JV) or subcontract portions of the contract to BBBEE companies must state in their Tenders / Proposals the percentage of the total contract value which would be allocated to such BBBEE companies, should they be successful in being awarded any business. A rating certificate in respect of such BBBEE JV-partners and/or sub-contractors, as well as a breakdown of the distribution of the aforementioned percentage allocation must also be furnished with the tender response to enable Transnet to evaluate / adjudicate on all tenders received on a fair basis.

Each Respondent is required to furnish proof of its BBBEE status (Certificate and Detailed Scorecard) and ensure that the documentation is valid at the date of Tender Submission as stipulated above to TRANSNET.

Failure to submit your BBBEE Certificate and Detailed Scorecard will result in a score of zero being allocated for BBBEE evaluation.

Turnover: Indicate y	our cor	mpany's most recent annual turnover:
	R	

- If annual turnover <R5m, please attach auditors / accounting officers letter confirming annual turnover and percentage black ownership as well as Black Women ownership
- If annual turnover >R5m please attach BBBEE certificate and detailed scorecard from an accredited rating agency.

The DTI has created an online B-BBEE Registry (http://www.dti.gov.za) in order to provide a central and standardized source of the B-BBEE status of all entities, and to facilitate the flow of this information amongst entities by providing a Unique Profile Number (UPN) per each listing. Existing and prospective suppliers are therefore urged to list their B-BBEE status on the DTI Registry. Hence, entities verified by DTI, will receive the following benefits:

- Their BBBEE status will be verified and confirmed by the DTI, before listing on the Registry
- Listing on the Registry will provide suppliers the option to market themselves on the DTI B-BBEE Opportunities Network. This is a search engine that is designed to help businesses find B-BBEE compliant entities who match specific requirements in terms of the nature of services/goods provided, region, B-BBEE status or other search criteria.

Transnet supports this DTI initiative and will use the DTI Registry to verify prospective and existing suppliers' BBBEE credentials.

Kindly provide Transnet with your DTI B-BBEE UNIQUE PROFILE NUMBER with all tender submissions.

DTI BBBEE UNIQUE PROFILE NUMBER:

Failure to submit your BBBEE information in terms of the above-mentioned clauses will result in a score of zero being allocated for BBBEE evaluation.

the contract documents.

- 1.3.1 It is a specific condition of this contract that Rail Stress Measurement is done in line with a program of Rail Stress Measurement. The Contractor shall therefore have to move from section areas to section areas within the depot and re-establish at no cost 10.
- 1.3.2 The Contractor shall clearly and comprehensively state in his tender what production rates are offered.
- 1.3.3 As per Clause 5.1 of the E5 (MW) (Nov 1996) the risk associated with normal weather (rain, high or low rail temperature) is with the contractor.

 12.
- 1.3.4 Occupations are not always granted on time as requested and approved. For example, instead of granting the occupation at 07H00 as requested and approved, due to train operational reasons, some delays occur, resulting in production work time shifting into the warmer part of the day. The risk of obtaining suitable rail temperature shall in such cases rest with the Contractor. The waiting time on site before occupations are granted shall not be considered a basis for a claim for Standing Time.

2. THE CONTRACT AREA AND DURATION

The work area will be on the Heidelberg Depot (Driemaanskap- Glencoe).

This will be four weeks contract.

3. TEMPORARY SPEED RESTRICTIONS

No temporary speed restrictions will be imposed on the work area unless need arises.

The condition of the track after completion of a day's work will be so as to allow for the safe passage of trains until work for the following day will commence. No extra time will be allowed on a normal occupation. The contractor will pay penalties, as described in TERMS APPLICABLE, for the track not being available after normal occupation has ended.

4. PROTECTION

11.

The Contractor will provide **3** trained persons for the exclusive use as protection staff per work site under occupation conditions. The protection staff has to be trained and certified by a competent person or authority. Flagmen must be officially trained, evaluated and certified competent, (Transnet Freight Rail 407 – Item Number 37/270451 - "Certificate of Competency") by a designated competent person, before being used on protection duties. This certificate of competency shall remain valid for one (1) year only after, which re-

testing and re-certification of competency will be required.

In cases where a person was not performing flagmen duties for a period of 6 months or longer, he must be re-tested and again be re-certified competent, before he may be re-used for Protection Duties.

Transnet Freight Rail Depot Engineer remains ultimately responsible in terms of the requirements of Act 85 for the safe working environment of his own personnel as well as contractor's personnel within the track maintenance environment on his depot.

Depot Engineer is therefore also responsible for ensuring that any changes in the Protection Procedures that may occur over time are effectively communicated to any flagmen prior to them being used for Protection Duties

The Contractor will provide all protection functions at the work area as required by the Track Inspector (Contracts) and according to the rules and regulations as stipulated in the Infrastructure safety guidelines.

Only after the Track Inspector/ Track Master (Contracts) has established that the protection is correctly set out by the Contractor, will he ask permission from the local operating office to commence with the occupation.

The protection staff of the Contractor will be in radio contact with their site supervisor. The radios/walkie-talkies must be reliable with sufficient power and range.

All equipment required to perform protection duties will be provided by the Contractor and allowed for in his tender rates.

5. DETAIL OF THE WORK REQUIRED

5.1 Order of Work

The order of operations is left to the Contractor with the proviso that: -

The basis of this contract shall be that the entire operation for Rail stress measurement shall be completed utilizing one Site Establishment. The vertical and horizontal alignment will be within the B-standard and the general track condition of the track to be within the A-standard before the rail de-stressing commences.

The Contractor will be allowed to do preparation work to aid productivity of the work's team. Typical preparation tasks such as boxing out of ballast or lubricating wooden sleeper fastenings can be done provided that it is done under the correct protection circumstances and confirmed with the Technical Officer. TRANSNER

Suppliers Code of Conduct

Transnet aims to achieve the best value for money when buying or selling goods and obtaining services. This, however, must be done in an open and fair manner that supports and drives a competitive economy. Underpinning our process are several acts and policies that any supplier dealing with Transnet must understand and support.

These are:

- >> Transnet Procurement Policy A guide for tenderers;
- Section 217 of the Constitution the five pillars of Public PSCM (Procurement and Supply Chain Management): fair, equitable, transparent, competitive and cost effective:
- >> The Public Finance Management Act (PEMA):
- The Broad Based Black Economic Empowerment Act (BBBEE); and
- >> The Anti-Corruption Act.

This code of conduct has been compiled to formally apprise Transnet Suppliers of Transnet's expectations regarding behaviour and conduct of its Suppliers.

Prohibition of Bribes, Kickbacks, Unlawful Payments, and Other Corrupt Practices

Transpet is in the process of transforming itself into a selfsustaining State Owned Enterprise, actively competing in the logistics industry. Our aim is to become a world class, profitable, logistics organisation. As such, our transformation is focused on adopting a performance culture and to adopt behaviours that will enable this transformation.

Transnetwill not participate in corrupt practices. Therefore, it expects its suppliers to act in a similar manner.

>> Transnet and its employees will follow the laws of this country and keep accurate business records that reflect actual transactions with, and payments to, our suppliers.
